

Gyraton Air Mouse

With Gyraton's intelligent Air Mouse featuring MotionSense, the world just got a little bit easier to navigate. No strings, no wires, no tricks, no gimmicks - just better technology allowing a more comfortable, portable mouse to operate in the air or on the desk. Take control of your applications with a flick of the wrist. You'll wonder how you ever did it any other way. The Air Mouse features a sleek, stylish design that is comfortable to use yet compact and portable enough to be used at home, at the office, or on the road. The RF USB receiver fits neatly in the Air Mouse and both can be stowed in the included protective carry case.
