

## **Roche** Height Adjustable Motorised Wall to Floor Mount (Up to 84")

This mobile trolley features electric height adjustment and is suitable for displays up to 84 inch with a maximum weight of 100kg (800 x 600 vesa). It offers 65cm of electrical height adjustment. Centre of screen can be from 755mm to 1400mm from the floor. These trolley units serve many needs, from enabling young children or wheel chair users to interact with touch screens. A simple cable remote control fits to the rear of the flat panel out of reach from little fingers. The weighted base is 924mm wide by 754mm deep.
