

Roche Quality 250W PA System (With SD / USB Media Player)

A complete and portable Unit with a pair of VHF handheld microphones & an integrated Media Player. These portable PA systems are suitable for most applications from small family events to school/college occasions, shops, shopping centre promotions & conferences. The retractable trolley handle and rear wheels also make it easy to move the Roche Quality PA units between classrooms and venue locations. Two VHF Wireless handheld microphones are included as well as a wireless remote control for the media player.
