

Roche Versatile Projector Trolley

Mobile, height-adjustable table with two shelves, offering very versatile usage. The upper shelf is height adjustable up to 50cm with a tilt of 12° making it ideal for holding a projector. A wide and flexible Velcro strip along with curved edges give the projector a secure hold and prevent the device from falling off. The projection table can be moved easily thanks to the four rollers and offers great mobility. Two of these plastic rollers are fixable by means of a parking brake to secure the table in its position whilst the projector is in use.
